

PROTECTED TREE REPORT (TREE WORKS)

Haringey Council, L4, Alexandra House, Station Road, N22 7TY

Application number	CON/2022/0411
Application type	Conservation Area Notification
Site Address:	76 Etheldene Avenue London N10 3QB
Proposal	T1- Laburnum tree- (4m)- light crown reduction of approximately 80cm. T2- Holly tree- (7m)-reduce to a height of approximately 2.5m from ground level. T7- Shrub next to house- reduce by approximately 1m. T3- Acer tree- (6m)- reduce crown by approximately 1m, lift over roof to create clearance. T4-Holly tree- (10m)- Cut to ground level. T5 - Dead Hornbeam tree (3m)- cut to ground level. T6- Neighbours Hornbeam tree- (15m)- reduce overhang to garden of number 76 by up to 4m to within 1 m of main frame of tree. Lift crown to 4m from ground level.

RECOMMENDATION:	No Objection	
Application date	03/10/2022	
Tree Inspector	DM	Date: 7 th November 2022

Site

The trees are situated in the rear and front (T1, T2, & T7) garden, as marked on the sketch plan, of the property. The trees at the front are publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also just within the Rookfield Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T1- Laburnum tree- (4m)- light crown reduction of approximately 80cm. T2- Holly tree- (7m)- reduce to a height of approximately 2.5m from ground level. T7- Shrub next to house- reduce by approximately 1m. T3- Acer tree- (6m)-reduce crown by approximately 1m, lift over roof to create clearance. T4-Holly tree- (10m)- Cut to ground level. T5 - Dead Hornbeam tree (3m)- cut to ground level. T6- Neighbours Hornbeam tree- (15m)- reduce overhang to garden of number 76 by up to 4m to within 1 m of main frame of tree. Lift crown to 4m from ground level.

Issues

I hold no objection to the reasonable proposed works. The specification is within good arboricultural practice and management.

The trimmed Holly T4 to the rear on the boundary would score low using a methodology for its worthiness of a Tree Preservation Order.

Recommendation

No Objection
