Site

The Lime *Tilia* spp. trees, as marked on the plan, are situated in the front communal garden of the property. They are publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works as I have attended the site before and protected the two Lime trees with a Tree Preservation Order.

Proposal

Tree works proposed:

Works to trees protected by a TPO.

Prune 2 no. lime trees to front of property back to previous points - 1m height x 1m width - outgrowing location.

Issues

I hold no objections to the proposed reasonable works with the Lime trees being reduced back to the last previous reduction points.

The specification is within good arboricultural practice and management.

This is common practice with Lime trees, and they restore their crowns over a short period of time.

Recommendation

No Objection
