Site

The trees are situated in the park grounds. They are publicly visible.

A site visit was deemed necessary to determine the appropriateness of the proposed works (28/10/2022 at 14:30).

The location is also within the Alexandra Palace Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

Works as specified on submitted documentation.

Issues

I hold no objection to the reasonable proposed works.

A walk around revealed that the works are within good arboricultural practice, and husbandry.

Works consist mostly of the removal, making safe of many dead, dying and dangerous young/ medium size trees. Many of these are self-sets.

Recommendation

No Objection
