Re : 45-63 Lawrence Road London N15 – HGY/2016/1213

Dear Valerie

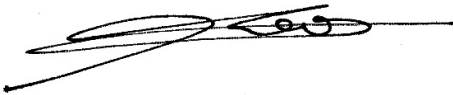

We are making a S96A non-material amendment application for the above approval.

The purpose of this exercise is to amend the currently approved glass balustrades and replace them with metal balustrades as shown on the proposed elevations.

The reason for doing so is to ensure that our building is matching with the adjoining development also currently under construction. This amendment will ensure the architectural language follows through on both schemes,

I have also included within this submission an image showing the typical design which will be of simple flat plates, the powder coated colour of the balustrades will be RAL 7021 complimenting the cladding and brickwork.

Kind Regards

A handwritten signature in black ink, appearing to read 'Theo Theodosiou', with a long horizontal line extending to the right.
