Dear Chris

REF: HGY/2019/0938
38 CRAWLEY ROAD, LONDON N22 6AG
APPLICATION FOR NON-MATERIAL AMENDMENT OF APPROVED SUDS DRAINAGE DESIGN

Further to our recent conversation regarding the SUDs drainage we enclose herewith the completed Non-Material Amendment application form. As you know the consented scheme provided for a permeable paving SUDs solution which Thames Water have now said they will not accept We have therefore re-designed the scheme to provide for on-site capture and controlled release.

The fee will be paid electronically to the relevant account in the sum of £234.00 with the reference HGY/2019/0938 unless otherwise advised.

To assist you with the review of this application we enclose the application form, a site location plan and the new proposed drawings scheduled in the table below (all emailed with this letter).

The schedule of updated drawings is as follows:

Existing	Proposed
3534-DS-101- Rev. P2	MBP-8545-500-C2 Below Ground Drainage-Sheet 1
	MBP-8545-501-C3 Below Ground Drainage-Sheet 2
	MBP-8545-502-C1 Below Ground Drainage-Schedules

We would be grateful if you could process this non-material amendment as a matter of urgency so that we can continue with the drainage works on site. Works are now suspended until this matter is resolved.

We trust that the above is clear but if any matter should require clarification or further development please do not hesitate to contact the undersigned.

Yours sincerely

DAVID HIGHFIELD
