**TOWN AND COUNTRY PLANNING ACT 1990
TOWN AND COUNTRY PLANNING (DEVELOPMENT MANAGEMENT PROCEDURE)
(ENGLAND) ORDER 2015
NOTICE OF PLANNING PERMISSION**

Case Reference HGY/2022/2659
Location Haringey Sixth Form Centre, White Hart Lane, London, N17 8HR
Proposal Erection of a single storey building to provide two new classrooms, 4 tutorial rooms, and a reception entrance area, with landscaped garden for use by students.
Received 21 September 2022

In pursuance of their powers under the above Act, the London Borough of Haringey as Local Planning Authority hereby PERMIT the above development received on the above date.

Title	Description	Date
5338-TF-ZZ-ZZ-DR-A-2004-S0-P1	Site Sections	12 October 2022
- September 2022	Energy Statement with Appendices	12 October 2022
5338-TF-ZZ-RF-DR-A-2003-S0-P1	Proposed Roof Plan	12 October 2022
5338-TF-ZZ-SP-DR-A-2000-S0-P1	Location and Proposed Site Plans	12 October 2022
5338-TF-ZZ-ZZ-DR-A-2001-S0-P1	Proposed Elevations and Section	12 October 2022
5338-TF-ZZ-SP-DR-A-2002-S0-P1	Proposed Floor and Site Plans	12 October 2022
5338-TF-XX-XX-VS-A-2001-P2	Proposed Ground Floor Plan, Elevations and Section	12 October 2022

Robbie McNaughton

Planning Service

Assistant Director Planning, Building Standards & Sustainability

Rob

bie McNaugher

**Head of Development Management and Planning Enforcement
Planning Service**

Conditions: (8)

- 1** The development to which this permission relates must be begun no later than three years from the date of this decision notice, failing which the permission shall be of no effect.

Reason: This condition is imposed by virtue of Section 91 of the Town and Country Planning Act 1990 and to prevent the accumulation of unimplemented planning permissions.

- 2** The development hereby permitted shall be carried out in complete accordance with the approved plans and drawings listed in this decision notice, other than where those details are altered pursuant to the conditions of this planning permission.

Reason: For the avoidance of doubt and in the interests of proper planning.

- 3** The development hereby permitted for the site outlined in red on plan number 5338-TF-ZZ-SP-DR-A-2005 Rev P1, shall not be operated before 08:00 hours or after 20:00 hours Monday to Friday, and at no time on weekends or Bank Holidays.

Reason: This permission is given to facilitate the beneficial use of the premises whilst ensuring that the amenities of adjacent residential properties are not diminished consistent with Policy DM1 of The Development Management DPD 2017.

- 4** Prior to the first occupation of the development hereby approved full details of both hard and soft landscape works shall be submitted to and approved in writing by the Local Planning Authority, and these works shall thereafter be carried out as approved.

Details shall include information regarding, as appropriate:

- a) Means of enclosure;
- b) Hard landscaping surfacing materials;
- c) Planting plans including an assessment of existing and proposed trees;
- d) Written specifications (including details of cultivation and other operations associated with plant and/or grass establishment);
- e) Schedules of plants, noting species, plant sizes and proposed numbers/densities where appropriate; and
- f) Details and location of pond.

The approved scheme of planting, seeding or turfing comprised in the approved details of landscaping shall be carried out and implemented in strict

accordance with the approved details in the first planting and seeding season following the occupation of the building or the completion of development (whichever is sooner). Any trees or plants, either existing or proposed, which, within a period of five years from the completion of the development die, are removed, become damaged or diseased shall be replaced in the next planting season with a similar size and species. The landscaping scheme, once implemented, is to be retained thereafter.

Reason: In order for the Local Planning Authority to assess the acceptability of any landscaping scheme, thereby ensuring a satisfactory setting for the proposed development in the interests of the visual amenity of the area consistent with Policy DM1 of the Development Management DPD 2017 and Policy SP11 of the Local Plan 2017.

- 5 Prior to above ground construction, a statement shall be submitted to and approved by the Local Planning Authority to demonstrate how the overheating risk has been minimised and mitigated on site in line with the London Plan Cooling Hierarchy. Details and specification of the mitigation measures shall be provided in support of this statement.

Reason: In the interest of reducing the impacts of climate change and mitigation of overheating risk, in accordance with London Plan (2021) Policy SI4, and Local Plan (2017) Policies SP4 and DM21.

- 6 Prior to the commencement of development above ground, a Sustainable Design and Construction Strategy must be submitted to and approved by the Local Planning Authority to demonstrate that the development promotes a circular economy, reduces the whole life carbon of the development with sustainable construction and materials, reduces the environmental impact of the construction process and delivers biodiversity net gain and urban greening benefits.

Reason: In the interest of reducing the impacts of climate change and mitigation of overheating risk, in accordance with London Plan (2021) Policy SI4, and Local Plan (2017) Policies SP4 and DM21.

- 7 (a) Prior to the commencement of development above ground, details of the living roof must be submitted to and approved in writing by the Local Planning Authority. Living roofs must be planted with flowering species that provide amenity and biodiversity value at different times of year. Plants must be grown and sourced from the UK and all soils and compost used must be peat-free, to reduce the impact on climate change. The submission shall include:
 - i) A roof plan identifying where the living roofs will be located;
 - ii) A section demonstrating settled substrate levels of no less than 120mm for

- extensive living roofs (varying depths of 120-180mm);
- iii) Roof plans annotating details of the substrate: showing at least two substrate types across the roofs, annotating contours of the varying depths of substrate
- iv) Details of the proposed type of invertebrate habitat structures with a minimum of one feature per 30m² of living roof: substrate mounds and 0.5m high sandy piles in areas with the greatest structural support to provide a variation in habitat; semi-buried log piles / flat stones for invertebrates with a minimum footprint of 1m², rope coils, pebble mounds of water trays;
- v) Details on the range and seed spread of native species of (wild)flowers and herbs (minimum 10g/m²) and density of plug plants planted (minimum 20/m² with roof ball of plugs 25m³) to benefit native wildlife, suitable for the amount of direct sunshine/shading of the different living roof spaces. The living roofs will not rely on one species of plant life such as Sedum (which are not native);
- vi) Roof plans and sections showing the relationship between the living roof areas and photovoltaic array; and
- vii) Management and maintenance plan, including frequency of watering arrangements.
- viii) A section showing the build-up of the blue roofs and confirmation of the water attenuation properties, and feasibility of collecting the rainwater and using this on site;

(b) Prior to the occupation of the building, evidence must be submitted to and approved by the Local Planning Authority that the living roof has been delivered in line with the details set out in point (a). This evidence shall include photographs demonstrating the measured depth of substrate, planting and biodiversity measures. If the Local Planning Authority finds that the living roof has not been delivered to the approved standards, the applicant shall rectify this to ensure it complies with the condition. The living roof shall be retained thereafter for the lifetime of the development in accordance with the approved management arrangements.

Reason: To ensure that the development provides the maximum provision towards the creation of habitats for biodiversity and supports the water retention on site during rainfall. In accordance with London Plan (2021) Policies G1, G5, G6, SI1 and SI2 and Local Plan (2017) Policies SP4, SP5, SP11 and SP13.

- 8** The development hereby approved shall be constructed delivering a 100% improvement on carbon emissions over 2021 Building Regulations Part L, high fabric efficiencies, air source heat pumps (ASHPs) and a minimum 10 kWp solar photovoltaic (PV) array.

(a) Within three months of commencing construction, details of the Energy Strategy shall be submitted to and approved by the Local Planning Authority. This must include:
Confirmation of how this development will meet the zero-carbon policy

requirement in line with the Energy Hierarchy;
Confirmation of the necessary fabric efficiencies;
Location, specification and efficiency of the proposed ASHPs (Coefficient of Performance, Seasonal Coefficient of Performance, and the Seasonal Performance Factor), with plans showing the ASHP pipework and noise and visual mitigation measures;
Specification and efficiency of the proposed Mechanical Ventilation and Heat Recovery (MVHR), with plans showing the rigid MVHR ducting and location of the unit;
Details of the PV, demonstrating the roof area has been maximised, with the following details: a roof plan; the number, angle, orientation, type, and efficiency level of the PVs; how overheating of the panels will be minimised; their peak output (kWp).
The development shall be carried out strictly in accordance with the details so approved prior to first operation and shall be maintained and retained for the lifetime of the development. The solar PV array shall be installed with monitoring equipment prior to completion and shall be maintained at least annually thereafter.

(b) Within six months of first occupation, evidence that the solar PV and ASHPs installation has/have been installed correctly shall be submitted to and approved by the Local Planning Authority, including photographs of the solar array, a six-month energy generation statement, and a Microgeneration Certification Scheme certificate.

Reason: To ensure the development reduces its impact on climate change by reducing carbon emissions on site in compliance with the Energy Hierarchy, and in line with London Plan (2021) Policy SI2, and Local Plan (2017) Policies SP4 and DM22.

Informatives:

INFORMATIVE: Land Ownership

The applicant is advised that this planning permission does not convey the right to enter onto or build on land not within his ownership.

INFORMATIVE: Hours of Construction Work

The applicant is advised that under the Control of Pollution Act 1974, construction work which will be audible at the site boundary will be restricted to the following hours:

8.00am - 6.00pm Monday to Friday
8.00am - 1.00pm Saturday
and not at all on Sundays and Bank Holidays.

INFORMATIVE: Party Wall Act

The applicant's attention is drawn to the Party Wall Act 1996 which sets out requirements for notice to be given to relevant adjoining owners of intended works on a shared wall, on a boundary or if excavations are to be carried out near a neighbouring building.

- 1 You can find advice in regard to your rights of appeal at:
www.planningportal.gov.uk/planning/appeals/guidance/guidancecontent
- 2 This notice relates solely to a planning decision and does not purport to convey any approval or consent which may be required under the Building Regulations or any other statutory purpose.
If you intend to submit an appeal that you would like examined by inquiry then you must notify the Local Planning Authority and Planning Inspectorate (inquiryappeals@planninginspectorate.gov.uk) at least 10 days before submitting the appeal.
- 3 For more information about making a Building Regulations application, please contact Haringey Council Building Control Team by email building.control@haringey.gov.uk, telephone 020 8489 5504, or see our website at www.haringey.gov.uk/buildingcontrol.
