| <b>RECOMMENDATION:</b>  | <b>No Objection</b> |                                             |
| <b>Application date</b> | 05/10/2022          |                                             |
| <b>Tree Inspector</b>   | DM                  | <b>Date:</b> 17 <sup>th</sup> November 2022 |

## **Site**

The Ash *Fraxinus* tree T1, as marked on the plan, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Stroud Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

## **Proposal**

Tree works proposed:

Ash tree on rear garden boundary: Reduce overall crown by up to 5 metres; remove any dead and defective branchwood.

This tree has been previously pollarded to this height so we are working within existing reduction framework.

Significant decay in the base.

## **Issues**

I hold no objections to the Ash tree on the boundary surrounded by structures being pruned back to the previous and managed as a high pollard again. The aerial shows the crown in a sparse condition.

## **Recommendation**

**No Objection**
