RECOMMENDATION:	No Objection	
Application date	06/10/2022	
Tree Inspector	DM	Date: 17 th Novemebr 2022

Site

The various trees T1- T4, as marked on the plan and seen in the images, are situated in the rear garden and front of the property. They are publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Crouch End Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T1 Fraxinus excelsior (Ash) - Height 16m, Diameter 90cm - Crown reduce by 30%

T2 Acer pseudoplatanus (Sycamore) - Height 15m, Multi-stem > 50cm - Crown reduce by 30%

T3 Conifer sp. - Height 10m, Diameter 70cm - Fell

T4 Fraxinus excelsior (Ash) - Height 4m, Diameter 5cm Fell.

Issues

I hold no objections to the reasonable tree works. T1 & T2 is a reduction for multi stemmed Ash and Sycamore.

Trees T3 the conifer is a low grade tree dominating and suppressing the garden. The tree is not worthy of a tree preservation order. T4 the Ash is a self-set.

Recommendation

No Objection
