Site

The Ash *Fraxinus* spp. tree, as seen in the image, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

Ash tree on rear boundary: Overall width reduction by up to 3 metres; Crown lift over school road at rear to provide 4 metres clearance.

Issues

I hold no objections to the proposed reasonable works that are within good arboricultural practice and husbandry.

The crown is showing sparseness and the tree is a past reduction. By reducing again this should encourage regeneration.

Recommendation

No Objection
