| <b>Proposal</b>           | We would like to reduce the mature London Plane tree by about 2-3m back to previous reduction points. Thinning the crown by about 15-20% and removing any dead wood. This is for the general maintenance and health of the tree. It is also to allow more light in to the garden area. |

## **Site**

The tree is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

## **Proposal**

Tree works proposed:

We would like to reduce the mature London Plane tree by about 2-3m back to previous reduction points. Thinning the crown by about 15-20%

and removing any dead wood. This is for the general maintenance and health of the tree. It is also to allow more light in to the garden area.

## **Issues**

I hold no objection to the proposed reasonable works. The specification is within good arboricultural practice and husbandry.

## **Recommendation**

**No Objection**
