Site

The Birch *Betula* tree, as seen in the photographs, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Crouch End Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

5 day DD notice to fell a dead Silver Birch tree at the above property. It appears to have been killed by honey fungus. Its upper crown is starting to break up and really needs to be felled as soon as is practicable.

Issues

I hold no objections to the dead Birch tree being felled under a five-day notice.

There is a condition to re plant dead, dying and dangerous trees within a tree conservation area.

Recommendation

No Objection

Condition: Re plant 10-12cm girth *Prunus* spp.
