Details of the pre-application advice received

The Council Occupational Therapy department has worked with the family ongoingly since February of 2020. The family lives in an owner occupied home on Wightman road and amongst the members of the family are Hani (12) and Maryam (4). Both of these children have genetic deteriorating life-limiting conditions which mean that they have profound physical and intellectual disabilities which regrettably will deteriorate as time progresses.

As a consequence of both children being non-weight-bearing, the home has been reconfigured to allow them to both sleep on the lower floor with Maryam sleeping in the front lounge and Hani in the back lounge. As a consequence, there is no family room other than the kitchen area. There is no option to install a through-floor lift to utilise the upper floor as there are level changes in this floor which would make the bathroom inaccessible. In the past, OT was involved and a platform lift installed to allow for main door wheelchair access. An entry level bathroom was converted to a wet room but the dimensions inadequate for a large tilt in space wheeled shower chair which is now essential for Hani to maintain adequate support in showering.

In my recommendations, I am including:

- 1 Increasing the bathroom footprint to become a wet room of 2000mm x 2000mm minimum to allow for assisted showering.
- 2 Installing a ceiling track x-y hoist in the front bedroom.
- 3 Installing a platform lift with ground works to allow access to the back garden for quality of life.

It is of note that the plans include both a storage room and a utility room.

Storage Rooms:

The DFG makes no reference to additional storage so I am not able to recommend this under the DFG. I can endorse that both children do have the need for extra storage not only because of continence and medical consumables (which are significant for both children but also as both children have a need for wheelchairs which are bulky, Specialist seating which is bulky, standing frames etc. With this in mind I feel it would be reasonable to seek permission for this facility.

Utility Room:

Both children are doubly incontinent, changed and washed on their beds and PEG fed. As a consequence, there is a significant need for daily laundry of bedding etc meaning that the family need to have large capacity washing and drying machines which are on a lot of the day to adequately maintain dignity, quality of life and hygiene. As above, the DFG does not have facility for laundry facilities but I can endorse this as a necessary and proportionate support on the proposed plans.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
