Subject: HGY/2022/3499

Hello,

We are writing on behalf of the community campaign group We Love Myddleton Road.

We are writing in relation to:

HGY/2022/3499
Certificate of lawfulness: proposed use of room as mini-cab booking office
66, Myddleton Road, London, N22 8NW
Officer: Michelle Meskell

The unit is currently a beauty salon.

We have no particular comment on the change of use to a mini-cab booking office.

However, we wanted to draw the Council's attention to the fact that the ground floor commercial unit at No. 66, Myddleton Road has one of the last remaining, original Victorian shop fronts on the street, including recessed door, Victorian floor tiles and stained glass.

Myddleton Road sits in a designated conservation area.

The application for a change of use contained no details, but did, rather strangely, include a hand-drawn rectangle with the apparent measurements of the new business.

We are extremely concerned that the applicant may be intending to remove and square off the original shop front of No. 66, Myddleton Road, permanently damaging the heritage of the street.

We therefore request the Council informs the applicant of the status of the Victorian shop-front, the conservation area status of Myddleton Road and makes it clear to the applicant that the existing shopfront should not be removed.

Kind regards,

Daniel, Emma and James
Co-Chairs, We Love Myddleton Road
