Site

The tree is situated in the rear garden of the property. It is publicly visible as it is a junction side garden to Highgate Avenue.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

Issues

The tree, adjacent to Highgate Avenue, has not been identified. However, it is clearly dead and dead wood is unpredictable.

I hold no objections to the removal of the tree under a five day notice.

There is a condition to replant dead, dying, and dangerous trees in a Conservation Area.

Recommendation

No Objection

Condition: Re plant *Acer* spp. 10-12cm girth.
