Details of the pre-application advice received

The proposed development would be providing additional housing which is supported. The proposal would be subject to Policy DM7 regarding infill / backland development. The site is located within the Family Housing Protection Zone (DM16) but the loss of the existing building would not result in the loss of a 3 bedroom (family size) unit. Part B of Policy DM7 highlights 7 sub-points amongst which any proposal must relate sensitively to the surrounding area as well as the established street scene, provide a site specific and creative response to the built and natural features of the area and safeguard privacy, and amenity. As explained in more detail below, the proposal is not considered to comply with the aforementioned policy in its current form. The built form and overall footprint, including the hard surfacing would need to be reduced significantly. The existing building is not listed, but located within the Bowes Park Conservation Area. The existing building reads as a single storey, subordinate back land building in relation to the larger buildings facing the street. This is a common feature of this part of the conservation area. Any proposed scheme would need to respect and reinforce the established townscape and qualities of the conservation area. The proposed building competes in scale with the larger blocks of flats that traditionally face the street. The proportions, spaces and relationships between buildings is also considered to be compromised by the proposed layout. The proposed development, based on the submitted drawings, is not considered to respect or reinforce the character and appearance of the Conservation Area and will need to be redesigned with the above in mind. The narrow gardens and route of approach are indications that the proposal has not been properly thought through. There is no strong mandate to duplicate the design of Orchard Court. A more bespoke / contemporary design showing the rationale behind the design response would be a more appropriate way forward. Contextual drawings, views from the street would be helpful to show how any potential proposal would respond to the characteristics of this part of the Bowes Park Conservation Area. The proposed development would be accessed via a narrow and unwelcoming alleyway and would not represent high quality, safe or inclusive design. It is noted that this is an existing scenario for the existing unit, but improvements to this access should be explored. A daylight / sunlight assessment should be provided to show that the proposal would not result in adverse impacts to neighbouring residential habitable room windows. The application site is located directly south of properties with rear facing windows along Clarence Road that could be affected. The proposed building to the rear of Orchard Court would appear visually oppressive given its scale and proximity. In addition, the inclusion of directly facing habitable room windows to the existing building (around 10m) would result

37. Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent. ☐ Yes ☒ No

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

38. Ownership Certificates and Agricultural Land Declaration

CERTIFICATE OF OWNERSHIP - CERTIFICATE A - Town and Country Planning (Development Management Procedure) (England) Order 2015 Certificate under Article 14

I certify/The applicant certifies that on the day 21 days before the date of this application nobody except myself/the applicant was the owner* of any part of the land or building to which the application relates, and that none of the land to which the application relates is, or is part of, an agricultural holding**

* 'owner' is a person with a freehold interest or leasehold interest with at least 7 years left to run. ** 'agricultural holding' has the meaning given by reference to the definition of 'agricultural tenant' in section 65(8) of the Act.

NOTE: You should sign Certificate B, C or D, as appropriate, if you are the sole owner of the land or building to which the application relates but the land is, or is part of, an agricultural holding.
