Subject: 5 day DDD application 18 Bishopswood Road

Good afternoon,

I hope all is well. Please can this be seen as a 5 day DDD notice for a T6 False Acacia (Robinia Pseudacacia) x 1.

This 16m Robinia has suffered from severe root heave. The trunk is at a 25 degree angle and is resting in the neighbouring Robinia. There are large roots exposed behind the trunk and the ground level is roughly 45cm higher where the root plate is being pulled up. Suggested work- fell to ground level.

I have attached photos for your reference.

Please let me know if you require anything else and could you confirm that this will be validated and put forward for approval.

Kind regards,

Stephanie Radziwillowicz
