Site

The False Acacia *Robinia pseuodacacia* tree T6, as seen in the photographs, is situated in the rear garden of the property. It is not clear whether the tree is fully publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.
