Proposal	There is a mature walnut tree in our back garden at the end of our patio. It needs to be reduced in order to keep it under control. We have appointed a local ARB approved arborist (Thor's Trees) who have recommended reducing it back to old pruning points, that is by approximating 0.5m, leaving growth.

RECOMMENDATION:	No Objection	
Application date	01/11/2022	
Tree Inspector	DM	Date: 30 th November 2022

Site

The Walnut *Juglans* spp. tree is situated in the rear garden of the property. It is publicly visible from the junction with Windemere Road.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Muswell Hill Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Tree works proposed:

Issues

I hold no objections to the proposed reasonable works. The tree has been pruned before to match its location.

I would advice to prune mid-summer- early autumn as Walnut trees are prone to bleeding and do not tolerate hard pruning.

Recommendation

No Objection
