Subject: 1 1 Queens Ave DDD

I have an Ash tree of which we have been monitoring this year due to very low growth. It never came into leaf in the summer and now we have construction works going in below it. We have had a few limbs/branches fall onto the cabin. So are you able to please to submit a 5 day DDD notice for me with the intention to pollard the tree and re-monitor but as a duty of care to the public and people working underneath it.

Here are some photos.

Best
