Here are the photos. First one being The Lime tree to prune back from building. The second and third is the Plane tree as the smaller Plane tree hasn't been reduced before as I first thought so we could reduce it or simply crown thin it by 20%, I am happy with the tree officers decision on that. The larger Plane was heavily rescued some years ago. The plan was to reduce it back to that as it's lapsed now.

Many thanks and I shall await the decisions

Mark
