Why do you consider that a Lawful Development Certificate should be granted for this proposal?

Converting the loft of a house is considered to be permitted development (not requiring planning permission) subject to the following limits and conditions.

These are specific to "the enlargement of a dwellinghouse consisting of an addition or alteration to its roof" as detailed in Schedule 2, Part 1, Class B of the The Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended).

There are different rules for:

"any other alteration to the roof of a dwellinghouse" (Schedule 2, Part 1, Class C) which are detailed in our 'Roof' section.

"enlargement of a dwellinghouse by construction of additional storeys" (Schedule 2, Part 1 Class AA) which are detailed in our 'Additional Storeys/Extending Upwards' section.

If these limits and conditions are not met, or Permitted Development rights have been removed in the area, then an application for Householder/Full Planning Permission will be required.

The current house:

Is not a building containing one or more flats, or a flat contained within such a building

Has not already had additional storeys added to it under permitted development rights

Was not changed to be used as a house (from a previous non-residential use) under permitted development rights.

Was not built as a 'New Dwellinghouse' under permitted development rights.

Is not on Article 2(3) designated land*

Limitations on the proposed development:

Materials must be similar in appearance to the existing house

Volume of enlargement (including any previous enlargement) must not exceed the original roof space by more than:

40 cubic metres for terraced houses; or

50 cubic metres otherwise

Must not exceed the height of the existing roof.

On the principal elevation of the house (where it fronts a highway), must not extend beyond the existing roof slope.

Must not include:

verandas, balconies* or raised platforms; or

installation, alteration or replacement of any chimney, flue, or 'soil and vent pipe'

Side-facing windows must be obscure-glazed; and, if opening, to be 1.7 metres above the floor of the room in which they are installed.

Construction must ensure that:

The eaves of the original roof are maintained (or reinstated)

Any enlargement is set back, so far as practicable, at least 20cm from the original eaves (see pages 35-36 of the Technical Guidance below for more details)

The roof enlargement does not overhang the outer face of the wall of the original house

With the exceptions that:

Points 1 and 2 do not apply to the relevant parts of any hip-to-gable enlargement.

None of these three points apply to the relevant parts of any enlargement that joins the original roof to the roof of a side or rear extension
