Description of Proposed Works

Please describe the proposed works

Installation of a conservatory by the company ConservatoryLand and approved installer. Please see attached images/plans. Total installation time 2-3 days. There will be no foundations or brickwork built. The design is a steel base that sits on legs on the existing ground with a steel 'wall' to the left and glass/PVC structure elsewhere. It is bolted to the rear wall of our house and is potentially removable. The structure is 3m deep from the house, 3.5m wide and 3m high (not exceeding the height of our our ground floor property).

The conservatory itself would fall within the criteria for permitted developments (it doesn't extend >3m from the property, it is not facing a road, it doesn't cover >50% of the external property) however it appears from the Haringey planning website that I need to apply because we live in the ground floor flat of a converted house (two flats only within the original house). The owner of the upstairs property (also the freeholder on our leasehold flat) is happy with the plan in principle and is arranging an inspection with us next week.

Has the work already been started without consent?
