## **Site**

The mature Willow *Salix* tree T1, as marked on the sketch plan, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Muswell Hill Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

## **Proposal**

Tree works proposed:

T1- Weeping Willow tree- (18m) - crown reduction to approximately one metre above historic pollard points.

## **Issues**

I hold no objections to the reasonable proposed pruning works that are within good arboricultural practice and husbandry.

Willows respond well to such works.

## **Recommendation**

**No Objection**
