Site

The Sycamore *Acer* spp. trees, as seen in the photographs, are situated in the passageway Parham Way. Ownership will need to be established by the agent. They are publicly visible.

A site visit was deemed necessary to determine the appropriateness of the proposed works (19/12/2022 at approximately 13:00).

The location is also within the Muswell Hill Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T1: Sycamore (14m): Crown reduce by 2m due to close proximity to building and fence

T2: Sycamore (12m): Fell due to die back

T3: Sycamore (8m): Fell as it is a poor specimen

Trees are located in Parham Way just outside the boundary of 123 Rosebery Road

(Works to T4 Ash will be considered separately under application reference HGY/2022/4080 as the tree is protected by a Tree Preservation Order).

Issues

I hold no objections to the proposed tree works.

The trees are self-sets, poor past pruning, have been over lifted, co-dominant, have poor morphology, and score low when using a methodology for their worthiness of a Tree Preservation Order.

Recommendation

No Objection
