Site

The young Ash *Fraxinus* spp. trees, as marked on the sketch plan and shown in the photographs, are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

Issues

I hold no objections to the removal of these young self-set ash that are within an inappropriate place and are likely to cause future direct damage.
