Subject: Re: 50, Ferme Park Road, London, N4 4ED

The tree surgeons came to do these tree work today and discovered that one of the trees is basically being held up by the ivy that was covering it - inside it's like sawdust and hollow. The tree needs to be removed ASAP as it is unsafe - as we're in a conservation area, can you advise if I need to submit a new application for this please?

Many thanks,
Kate
