Site

The listed trees, as marked on the plan, are situated in the grounds of the school. Some are publicly visible.

A site visit was deemed necessary to determine the appropriateness of the proposed works (22/12/2022 at approximately 12pm).

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

Works as specified on Tree Survey to T3665: Sycamore (9m) fell Kretzschmaria fruiting bodies on tension side, T3669: x2 Sycamore (18m) in copse dying leggy exclusion stage trees within the copse, T3670: Sycamore (17m) same condition as T3669, T3671: Sycamore (18m) same condition as T3669, T3672: Dead Tree (3m), T3675: Sycamore (10m) poor specimen, and T3676: Common Ash (18m) deadwood.

(The remaining works will be considered under application reference HGY/2022/4101, as the subject trees are protected by Tree Preservation Orders).

Issues

I hold no objections to the reasonable proposed works that have been highlighted from a survey of the tree stock on site.

The specification is within good arboricultural practice and husbandry.

Recommendation

No Objection
