

PROTECTED TREE REPORT (TREE WORKS)

Haringey Council, L4, Alexandra House, Station Road, N22 7TY

Application number	HGY/2022/4111
Application type	Conservation Area Notification
Site Address:	Highgate Junior School 3 Bishopswood Road Highgate London N6 4PL
Proposal	Works as specified on Tree Survey to T3682: Sessile Oak (18m), T3684: Box Elder (10m) and T3685: Pissards Plum (5m). (The remaining works will be considered under application reference HGY/2022/4102, as the subject trees are protected by Tree Preservation Orders).

RECOMMENDATION:	No Objection	
Application date	14/11/2022	
Tree Inspector	DM	Date: 23 rd Decmeber 2022

Site

The listed trees, as shown on the marked plan, are situated in the grounds of the school. They are publicly visible.

A site visit was deemed necessary to determine the appropriateness of the proposed works (22/12/2022 at approximately 12pm).

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

Works as specified on Tree Survey to T3682: Sessile Oak (18m) deadwood and crown lift 2m over structure, T3684: Box Elder (10m) fell declining and T3685: Pissards Plum (5m) reduce over highway 2-3m.

(The remaining works will be considered under application reference HGY/2022/4102, as the subject trees are protected by Tree Preservation Orders).

Issues

I hold no objections to the reasonable proposed works that have been highlighted from a survey of the tree stock on site. The survey has been split in several sub sections due to the size of the area (approximately 30 hectares).

The specification is within good arboricultural practice and husbandry.

Recommendation

No Objection

Condition: There are several Sec.211 notices for the site with several fells.

The most significant being T3665: high pollard Sycamore (9m) fell Kretzschmaria fruiting bodies poor condition. There is a condition to re plant dead, dying and dangerous trees within a Conservation Area.

Re plant: 10-12cm girth *Acer* spp.
