Site

The Apple *Malus* spp. tree is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Bowes Park Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

Prolific apple drop. Tenant states there are wasps and neighbour is not clearing apples from their side. Has also stated there are rats eating the apples and that she is not physically able to keep removing them. Small amount of dieback in crown.

Recommendation: Crown reduce tree by 2.5-3m, crown thin by 20% and shape.

Issues

I hold no objection to the proposed reasonable works. The specification is within good arboricultural practice and husbandry.

Recommendation

No Objection
