Dear Mr Krzyszowski,

Re.HGY/2022/4421

I received notification of this proposal 28/12/2022.

Whereas I do not object to some form of extension, I am concerned about the proposed size stated in this application. My comments are as follows:-

1. There would be a considerable loss of light in my dining room.
2. The length and height would cause overshadowing in my garden, and possibly, kitchen.
3. The length and height of the proposed extension would cause a 'boxing in' of a third of my garden, especially as it would extend further than the extension at no.76.
4. The proposed height seems to be very close to the back-bedroom window of my property. If a walk-on flat roof is part of the design, this would cause a lack of privacy.

I would also like to know if the extension wall would be on the boundry line.

I am happy to discuss things further with you, or the new owner of no.72.

As I could not contact your department by phone, and no email address could be found, would it be possible for you to give me an email address to make contact as the post is creating delays with the industrial unrest?

Regards,

Ruth Robertson
