Planning application to replace rear kitchen window

Dear Sir/Madam

We are applying for planning permission to replace the existing single-glazed kitchen window – made of timber - on our rear wall with a relocated, double-glazed, enlarged window made of aluminium.

This application follows on from the recently granted planning permission (HGY/2022/2543) for conversion of the loft space and the installation of an external spiral staircase to the rear.

We are open to any questions or concerns and would be happy to work with you to ensure that our proposal is acceptable.

Please don't hesitate to contact us with any thoughts, requests or comments.

Yours faithfully,

Anna Maidment and Ben Woolf
