Site

The Lime *Tilia* spp. trees G8, as shown on the marked plan and photograph, are situated in the rear and at the side of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The trees are protected by a Tree Preservation Order (TPO).

Proposal

Tree works proposed:

Works to trees protected by a TPO.

G8: Common Lime (18m): Shorten lateral branches back by 2m so they are in-line with the boundary fence as they overhang an access road.

Issues

I hold no objections to the reasonable proposed tree works.

The specification is within good arboricultural practice and husbandry.

The land manager is practicing their common law right to the boundary only from their side without trespassing. They should as a courtesy inform the adjacent landowner of their intentions and offer the arisings back.

Recommendation

No Objection
