Site

The Oak *Quercus* spp. tree T1, as shown on the plan, is situated in the rear communal grounds of the property. It is not publicly visible.

A recent site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Muswell Hill Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

207 - Oak: Crown reduce by: 3m height, 1m flats side*, 3m school side (*Back to previous pruning points). Reason: Asymmetric tree, the tree is shading a block of flats and the residents are complaining they are getting no light, the branches are too close to the building and may cause damage if they get much bigger.

Issues

I hold no objections to the proposed reasonable works.

The specification is with good arboricultural practice and husbandry.

I previously met the agent on site and went through the tree survey for the location.

Recommendation

No Objection
