Site

The trees T1 Apple & T2 Ash, as marked on the map and shown in the photographs, are situated in the rear car park of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Trinity Gardens Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T1: Apple at back of car parking area

The tree has previously been reduced

Recommendation: Crown reduce back to previous points of reduction, approximately 3-4m

T2: Ash in car park

The tree is a self-set ash breaking up the car park and will damage fence.

Recommendation: Fell tree in sections and treat stump.

Issues

I hold no objections to the proposed reasonable works.

The Ash is a low grade self-set causing direct damage, and is not worthy of a Tree Preservation Order.

Recommendation

No Objection
