Site

The trees T1- T3, as marked on the plan, are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T1 - copper beech (6m) - reduce height by up to 2m and reduce sides by up to 1m.

T2 - dead forsythia (2m) - take down to ground level and dig out stump.

T3 - dead cherry tree (2m) - take down to ground level and dig out stump.

Issues

I hold no objections to the proposal. T1- T3 are low grade and not worthy of a Tree Preservation Order.

Recommendation

No Objection
