PROPOSED DEVELOPMENT AND LOCATION DETAILS

Proposed development.

This is an application for the erection of a new porch.

Site and Surroundings

The application site is a two-storey terraced house. It is not in a conservation area, nor does it have a listed building status.

Though not a very common feature, a few porches can be seen on Devonshire Hill Lane.

Relevant Planning and Enforcement history

There is no recent planning history in relation to the site.

LOCAL REPRESENTATIONS

The application has been publicised by way of a site notice displayed in the vicinity of the site and 3 letters. No representations were received.

MATERIAL PLANNING CONSIDERATIONS

The main planning considerations raised by the proposed development are:

1. Design and appearance
2. Impact on neighbouring amenity

Design and appearance

DPD Policy DM12 'Housing Design and Quality' states that extensions or alterations to residential buildings, including roof extensions will be required to be of a high, site specific, and sensitive design quality, and respect and/ or complement the form, setting, period, architectural characteristics, detailing of the original building, including external features such as chimneys, and porches.

High quality matching or complementary materials should be used appropriately and sensitively in relation to the context. DPD Policy DM1 'Delivering High Quality Design' requires development proposals to relate positively to their locality, while Local Plan (2017) Policy SP11 requires the highest standard of design that respects local context and character and historic significance, which is equally supported by London Plan (2021) Policy D6.

The proposal is for a small front porch at the entrance of the property. The proposed porch is of a modest size and will be in line with the depth of the existing flower tub, about 1m. The proposed porch will be about 3m wide thereby reducing the size of the existing flower tub. However, the new flower tub will still be over 2m, maintaining its visual impact. Additionally, the proposed porch will be of materials that match the existing. The eave's height of the porch is about 2.5m and the overall height is about 2.8m. Given the small depth of the porch, this is considered to be proportional and subordinate to the host building.

Therefore, the scheme does not undermine the existing uniformity of the host building.

As such, the proposal is considered in line with the above policies.

Impact on neighbouring amenity

London Plan Policy D6 outlines that design must not be detrimental to the amenity of surrounding housing, in specific stating that proposals should provide sufficient daylight and sunlight to surrounding housing that is appropriate for its context, while also minimising overshadowing. London Plan Policy D14 requires development proposals to reduce, manage and mitigate noise impacts.

DPD Policy DM1 'Delivering High Quality Design' states that development proposals must ensure a high standard of privacy and amenity for a development's users and neighbours. Specifically, proposals are required to provide appropriate sunlight, daylight and aspects to adjacent buildings and land, and to provide an appropriate amount of privacy to neighbouring properties to avoid overlooking and loss of privacy and detriment to amenity of neighbouring resident.

The proposal is of a modest scale and has no impact on access and daylight for the neighbours. Additionally, the proposal is in keeping with the pattern of development of the surrounding area as porches can be seen nearby.

As such, the proposal is considered in line with the above policies.

Conclusion

The proposal is considered acceptable.

All other relevant policies and considerations, including equalities, have been considered. Planning permission should be granted for the reasons set out above. The details of the decision are set out in the RECOMMENDATION.

CIL APPLICABLE

The increase in internal floor area would not exceed 100 sq.m. and therefore the proposal is not liable for the Mayoral or Haringey's CIL charge.
