EV:

This is a detailed architectural elevation drawing of a two-story residential building. The house features a gabled roof with a chimney on the right side. The facade is composed of several windows: a small square window in the upper left, a larger multi-paned window in the center, and a bay window on the right. A central entrance door is flanked by two smaller windows. The drawing includes dashed lines indicating structural elements and a small garden area with a fence in the foreground.

No.69 Muswell Hill Place

An architectural line drawing of a house elevation. The house features a gabled roof with horizontal siding. A chimney is located on the left side of the roof. The front facade has a large double door on the right and a large double window on the left. Above the door is a small transom window. The second floor has a large double window on the left and a smaller double window on the right. The drawing is framed by dashed lines, suggesting it is a section of a larger plan.
