Site

The Hornbeam *Carpinus* spp. tree T1, as marked on the sketch plan, is situated in the front garden of the property. It is publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is protected by a Tree Preservation Order (TPO).

Proposal

Tree works proposed:

Hornbeam T1 - Reduce crown by 3-4m.

Please refer to page 3 of the report submitted with this application for the justification for this work.

Issues

I hold no objections to the proposed tree works.

An arboricultural tree survey has been submitted by Gifford Tree Service dated 2nd November 2022.

Further mechanical investigations have been carried out to determine the safety factor and sound residue wood with the ultrasound tool Picus.

I concur with the findings, recommendations, and the specification within the report.

Hornbeam trees generally respond well to such reductions.

Recommendation

No Objection
