

PROTECTED TREE REPORT (TREE WORKS)

Haringey Council, L4, Alexandra House, Station Road, N22 7TY

Application number	HGY/2022/3863
Application type	Tree Preservation Order application
Site Address:	1 16 St Martins Terrace, Pages Lane, Hornsey, London, N10 1QY
Proposal	Oak tree at the front of 1 St Martin's Terrace, within our land. The application is for a crown reduction, with a combination of thinning and length reduction of approximately 30% or 1.5 metres in length. Similar work has been carried out before and we have been recommended that this should happen on a three yearly cycle. The reason for the proposed work is for the maintenance and health of the tree. We have taken advice from Fiona Critchley of Arborecultural Solutions LLP regarding the care of the tree. The work will be carried out to BS 3998: Recommendations for Tree Work.

RECOMMENDATION:	No Objection	
Application date	19/10/2023	
Tree Inspector	DM	Date: 16 th January 2023

Site

The tree Oak *Quercus* spp. tree, as marked on the plan, is situated in the front garden of the property. It is publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The Oak tree protected by a Tree Preservation Order.

Proposal

Tree works proposed:

Oak tree at the front of 1 St Martin's Terrace, within our land.

The application is for a crown reduction, with a combination of thinning and length reduction of approximately 30% or 1.5 metres in length. Similar work has been carried out before and we have been recommended that this should happen on a three yearly cycle.

The reason for the proposed work is for the maintenance and health of the tree.

We have taken advice from Fiona Critchley of Arboricultural Solutions LLP regarding the care of the tree. The work will be carried out to BS 3998: Recommendations for Tree Work.

Issues

I hold no objections to the proposed tree works.

The large Oak has been reduced before.

I have read the tree inspection report from Arboricultural Solutions LLP dated August 2022 and concur with much of the findings.

The Oak tree has *Laetiporus sulphureus* (Chicken of the Woods). This has been recorded on the south scaffold.

The specification is within good arboricultural practice and husbandry.

Permission for authorised works lasts for two years from the date of the decision letter.

Recommendation

No Objection
