Tree Inspector	DM	Date: 9 th February 2023

Site

The trees T1 Apple and T2 Ash, as marked on the plan, are situated in the rear garden of the property. They are publicly visible from the Parkland Walk.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T1 - Apple tree in rear garden

- Clean to remove all dead, diseased, or crossing branches (4) inches in diameter or larger
- Reduce mature upright limb back to main stem to tidy & prune remaining height to balance shape

T2 - Council owned Ash tree located on Parkland Walk land

- Clean to remove all dead and diseased branches to make tree safe
- Reduce laterally back to previous points of reduction client side only to maximise light penetration to understory planting.

Issues

I hold no objections to the proposed reasonable works.

The specification is within good arboricultural practice and husbandry.

The works to T2 is the resident carrying out their Common Law Right of pruning back to the boundary only and deadwooding from their side on the property. The screening between the property and Parkland Walk will remain unaffected.

In this particular instance Haringey Council would not want the arisings offered back.

Recommendation

No Objection
