Hello Daniel

Transport comments are as follows:

- a. The site has excellent public transport accessibility (PTAL=6a) and is located within a CPZ.
- b. The proposals is car free.
- c. Cycle parking for two bicycles should be provided to meet London Plan standards. This should be sheltered, secure and accessible. I suggest this cycle storage should be provided in the front yard. Further guidance is available in London Cycling Design Standards.
- d. Plans showing provision for refuse storage should be provided. I note the existing refuse bins are stored in the front yard.

Subject to the above, there are no transport objections regarding this application.

PS: please note that this consultation was sent incorrectly to Transport Planning inbox – unlike all other DM consultations that are sent to Consultation Transportation inbox.

Regards,

Shreekant Patel  
Principal Transport Planner.
