Tree Inspector	DM	Date: 14 th February 2023

Site

The Contorted Willow T1 tree, as marked on the plan, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Crouch End Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T1 Contorted Willow/ Corkscrew Willow. Pollard required. Reduction from 8M (as it is now) to approx 4.5-5M This tree was last maintained in 2021. Our neighbours in Number 29 have requested we maintain the tree as the canopy overshadows their garden by approx 3M.

Issues

I hold no objections to the proposed works.

The tree scores low using a methodology for its worthiness of a Tree Preservation Order.

Willows generally respond well to such works.

Recommendation

No Objection
