REASONS FOR GRANTING PERMISSION

The subject site is a first floor 1-bedroom flat in a subdivided mid-terrace building. The proposed rear dormer would provide an extra floor for the flat and essentially convert into a maisonette. The site is not located within any conservation area and does not fall within the curtilage of a listed building.

The planning history of the site has been taken into account when coming to this decision.

The proposed rear dormer would be below the ridge of the and above the eaves of the main roof, and does not extend beyond the flank walls, and therefore it would appear subservient to the main dwelling and not cause overlooking. The rooflights on the front slope would also not cause overlooking to the properties on the other side of the road.

The proposed rear dormer is considered proportionate and subordinate to the host building and is in keeping with the pattern of development in the area. Therefore, the local character and visual amenity of the area will be protected.

The height and depth of the rear dormer extension would not result in a material loss of sunlight or daylight, or have an overbearing appearance to the neighbouring property. There will be no material loss of privacy to neighbouring properties. The proposal is acceptable in amenity terms.

The proposed development is in general accordance with Policies DM1, DM9, and DM12 of the Development Management, Development Plan Document 2017, and policies SP11 and SP12 of Haringey's Local Plan Strategic Policies 2017. The proposed development also accords with the relevant policies of the London Plan 2021 and the NPPF.

All other relevant policies and considerations, including equalities, have been taken into account. Planning permission should be granted for the reasons set out above.
