

PROTECTED TREE REPORT (TREE WORKS)

Haringey Council, L4, Alexandra House, Station Road, N22 7TY

Application number	HGY/2023/0200
Application type	Conservation Area Notification
Site Address:	139 Stapleton Hall Road Hornsey London N4 4RB
Proposal	Insured trees T1 sycamore fell and kill subs damage to property and proximity to property (no visual amenity) T2 ash fell and kill subs damage to property and proximity to property (no visual amenity) T3 sycamore fell and kill subs damage to property and proximity to property (no visual amenity) Third party trees T4 sycamore fell and kill subs damage to property and proximity to property (no visual amenity) T5 sycamore fell and kill subs damage to property and proximity to property (no visual amenity) T6 ash fell and kill subs damage to property and proximity to property (no visual amenity).

RECOMMENDATION:	No Objection	
Application date	20/01/2023	
Tree Inspector	DM	Date: 21 st February 2023

Site

The various Sycamore & Ash trees T1-T6, as marked on the plans, are situated in the rear garden of the property. They are not publicly visible.

A site visit was deemed necessary to determine the appropriateness of the proposed works (17/02/2023 at approximately 12:30pm).

The location is also within the Stroud Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

Insured trees

T1 sycamore fell and kill subs damage to property and proximity to property (no visual amenity)

T2 ash fell and kill subs damage to property and proximity to property (no visual amenity)

T3 sycamore fell and kill subs damage to property and proximity to property (no visual amenity)

Third party trees

T4 sycamore fell and kill subs damage to property and proximity to property (no visual amenity)

T5 sycamore fell and kill subs damage to property and proximity to property (no visual amenity)

T6 ash fell and kill subs damage to property and proximity to property (no visual amenity).

Issues

I hold no objections to the proposed works.

A tree report and soil analysis have been submitted. There are no level monitoring results.

However, solely on the grounds that the trees are self-sets, low grade, low amenity value, no public visibility, mitigating works should be allowed whilst further monitoring and level monitoring results are provided.

Recommendation

No Objection
