

NOTES:

**Preliminary Notes:**

This drawing is copyright owned and used by F3 Architects LLP and is for use on this site only under contractually sealed elements.

All other design team members, whom indicated have been imported from the consultant's drawings and all information must be made to the final consultant drawings, based on exact setting-out data and type components.

Discrepancies and/or omissions within this drawing, between it and information given elsewhere, must be referred to the originator.

All works are to be carried out in accordance with the latest British Standards Codes of Practice unless specifically defined in the specification.

Responsibility for the reproduction of this drawing in any format, lies with the recipient who shall inform the originator if they consider that there has been a change to the original paper or electronic image. Graphical representations of equipment on the drawings are approximate only. Please refer to specifications and / or details for actual sizes and / or specific contractor construction information.

This original document is issued for the purpose intended in the block and contains information of a confidential nature. It is to remain the property of the originator and is not to be copied, reproduced or released under the contract. This original must be destroyed or returned to the originator.

Levels shown have been interpreted from drawn information received from a third party and F3 Architects LLP does not accept responsibility for accuracy of that information. The originator of that information controls that information contained within this drawing prior to work being commenced. Any discrepancies will be the responsibility of the originator of that information and must be reported immediately to the Design Team before proceeding. The boundary redline shows a indicative.

It is assumed that all works on this drawing will be carried out by a competent contractor, working where appropriate to an approved method statement.

Except for Planning purposes, figured dimensions only are to be taken from this drawing.  
All dimensions are in millimeters unless otherwise stated.  
All dimensions shall be checked on site prior to works commencing.  
Any discrepancies shall be reported to the Architect.

## Architect

Refer to relevant construction (Design and Management) documentation where applicable. The Contractor shall plan, manage and monitor the works inclusive of temporary erection stability. Any works that are found to be unstable in the temporary state are to be reported directly to the structural engineer and Main Contractor/Package Manager in order to provide safe temporary support. Check on site prior to commencement of works/fabrication etc.
