Site

The Horse Chestnut *Aesculus* spp. tree T1, as marked on the plan, is situated in the rear garden of the property. It is not publicly visible.

A site visit was deemed necessary to determine the appropriateness of the proposed works (23/01/23 at approximately 11:45am).

The Horse Chestnut tree is protected by a Tree Preservation Order (TPO).

Proposal

Tree works proposed:

Works to tree protected by a TPO.

T1) Horse Chestnut: reduce by 2 metres for maintenance of tree.

Issues

I hold no objections to the proposed reduction works.

The over mature Chestnut, on a visual tree assessment, has decay, split, and hollow sounds at the base when attenuation tested with a nylon head mallet.

The tree has been cabled braced and reduced in the past to mitigate for the condition of the tree.

A further reduction will reduce the crown weight, reduce the crown sail area and lower below the canopy line to shelter from prevailing winds.

The trees on site are regularly surveyed to discharge duty of care.

It would be advisable to carry out further mechanical investigations on the stem of the tree.

Recommendation
