5. Design

DPD Policy DM12 'Housing Design and Quality' states that extensions or alterations to residential buildings, including roof extensions will be required to be of a high, site specific, and sensitive design quality, and respect and/ or complement the form, setting, period, architectural characteristics and detailing of the original building, including external features such as chimneys, and porches. High quality matching or complementary materials should be used appropriately and sensitively in relation to the context. DPD Policy DM1 'Delivering High Quality Design' requires development proposals to relate positively to their locality, while Local Plan (2017) Policy SP11 requires the highest standard of design that respects local context and character and historic significance, which is equally supported by London Plan (2021) Policy D6.

While no other properties in this section of terrace have been extended at first floor level, the proposal would be located at the end the terrace and adjoining another terrace where the extension would not be widely visible in public views. The proposed dormer would be subordinate to the rear roof plane. The side extension is designed to appear harmonious with the original terrace and in keeping with the scale and detailing. Following pre-application advice, the scheme was amended to address officer objections to elements of the detailed design and the size of the rear projection. The amendments fully address the original concerns and the proposal is considered proportionate and sympathetic to the original design of the terrace and the character of the area.

6. Impact on Neighbouring Amenity

London Plan Policy D6 outlines that design must not be detrimental to the amenity of surrounding housing, in specific stating that proposals should provide sufficient daylight and sunlight to surrounding housing that is appropriate for its context, while also minimising overshadowing. London Plan Policy D14 requires development proposals to reduce, manage and mitigate noise impacts.

DPD Policy DM1 'Delivering High Quality Design' states that development proposals must ensure a high standard of privacy and amenity for a development's users and neighbours. Specifically, proposals are required to provide appropriate sunlight, daylight and aspects to adjacent buildings and land, and to provide an appropriate amount of privacy to neighbouring properties to avoid overlooking and loss of privacy and detriment to the amenity of neighbouring residents.

The proposed rear projection at the first floor would be 2m deep and would not have a detrimental affect on neighbouring outlook or light, in contrast with the previous scheme. The development would not give rise to any other harm to amenity and is considered acceptable.

7. Conclusion

The proposal is considered acceptable in respect of its appearance and impact on the site and would not result in material harm to the residential amenity of neighbours. All other relevant policies and considerations, including equalities, have been taken into account. Planning permission should be granted for the reasons set out above.

8. RECOMMENDATION

Grant permission subject to condition(s):

Conditions:

- 1 The development to which this permission relates must be begun no later than three years from the date of this decision notice, failing which the permission shall be of no effect.

Reason: This condition is imposed by virtue of Section 91 of the Town and Country Planning Act 1990 and to prevent the accumulation of unimplemented planning permissions.

- 2 The development hereby permitted shall be carried out in complete accordance with the approved plans and drawings listed in this decision notice, other than where those details are altered pursuant to the conditions of this planning permission.

Reason: For the avoidance of doubt and in the interests of proper planning.

- 3 The external materials to be used for the proposed development shall match in colour, size, shape and texture those of the existing building.

Reason: In order to ensure a satisfactory appearance for the proposed development, to safeguard the visual amenity of neighbouring properties and the appearance of the locality consistent with Policy D3 of the London Plan 2021, Policy SP11 of the Haringey Local Plan 2017 and Policy DM1 of The Development Management DPD 2017.

Informatives:
