Site

The Cherry *Prunus* spp. tree is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Noel Park Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T1 Cherry - Fell and treat stump with Eco Plugs to combat subsidence.

Issues

I hold no objections to the proposed removal of the Cherry.

Not for the indirect subsidence reasons given, as we require detailed investigations and soil analysis but for the reason that the tree is low grade, and not worthy of a Tree Preservation Order.

Recommendation

No Objection
