

Philip Shaw, 10 Highgate High Street, London, N6 5JL

Design and Access Statement

The owners of the house have worked to retain and protect the existing historic fabric of the house since acquiring it in 2017.

This application seeks to replace the existing front door, which no longer fits the doorframe, not provides adequate protection from the elements with a new front door of the same appearance.,

The work will be carried out by Sash Window Workshop Trading Ltd, who have experience working with Listed Buildings.

Throughout the proposed works careful attention will be paid to avoiding damage to the existing fabric.

Yours faithfully,

Philip Shaw
