Site

The Holly *Ilex* spp. tree T1, as marked on the sketch map, is situated in the front garden of the property. It is publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Fortis Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T1- Holly tree in front garden- (6.5m) - cut to ground level.

Issues

I hold no objections to the removal of the Holly tree.

The tree scores relatively low when using a methodology to rate the worthiness of a Tree Preservation Order.

Reasons cited for removal is heavy shade to the front room. The residents have offered to re plant the loss.

An ornamental *Prunus* spp. would be ideal.

Recommendation

No Objection
